

Escaping the Post-acute Care Staffing Grind

THE POST-ACUTE STAFFING CHALLENGE:

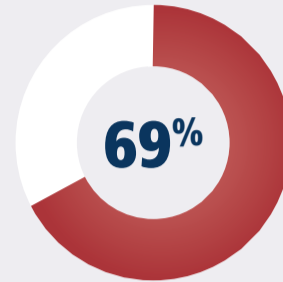

Staffing Shortages

Nursing homes and assisted living facilities are asking staff to work overtime or extra shifts.

Source: AHCA survey, 2021

Heavy Use of Per Diem Staff

SNFs who have turned to hiring temporary agency staff.

Source: Fierce Healthcare, 2021

Financial Costs

Majority of nursing homes and assisted living facilities are concerned that staff shortages may force closures.

Source: AHCA survey, 2021

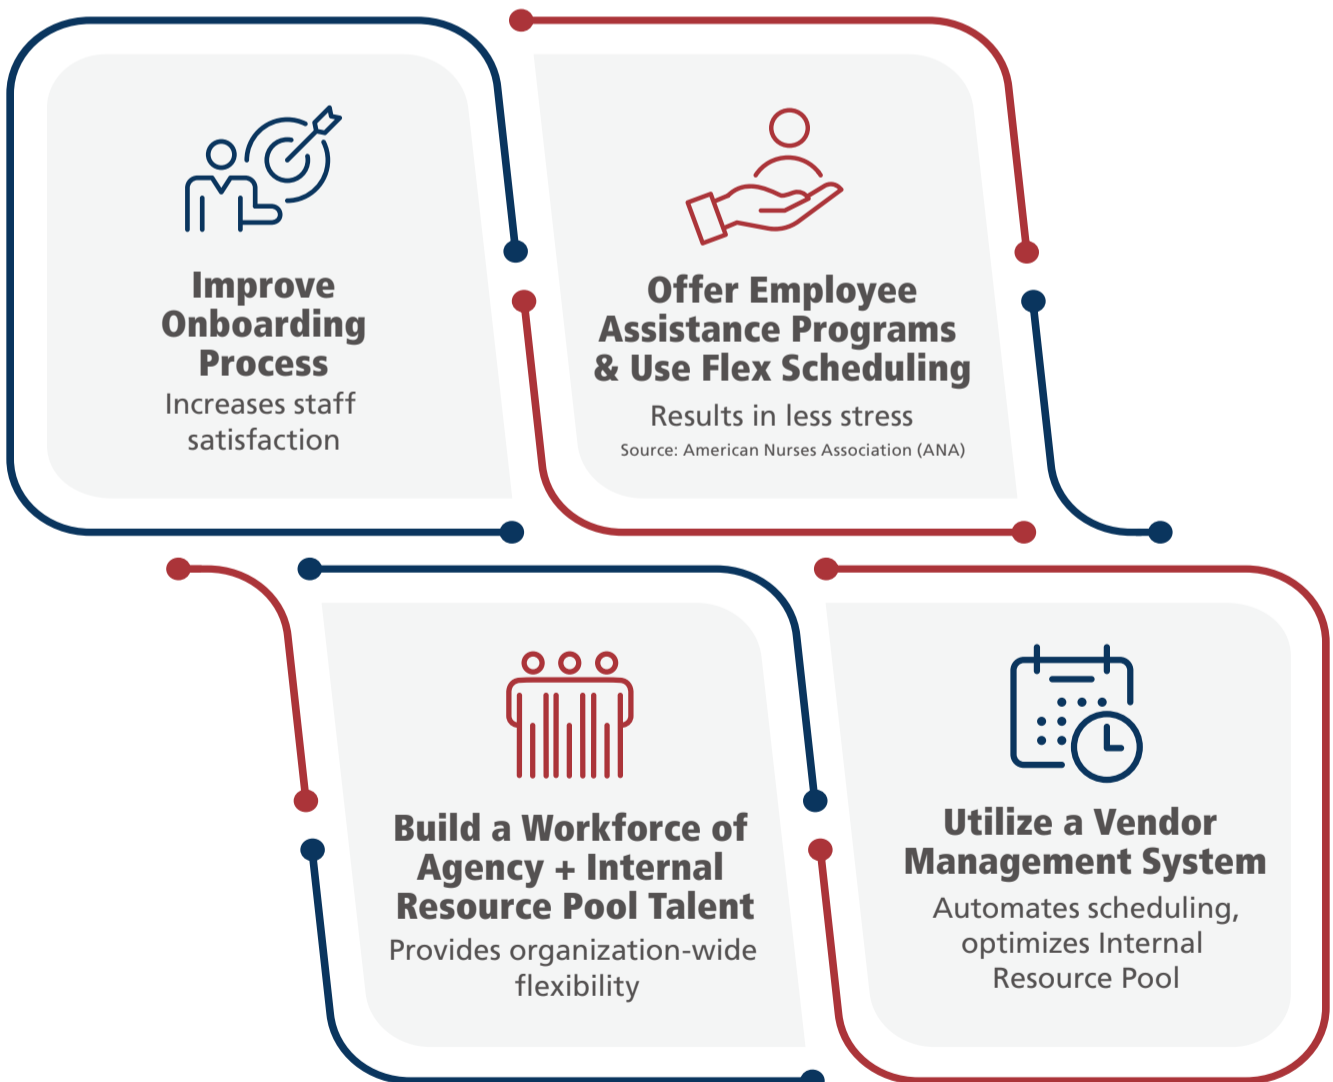

78%

Nursing Homes

61%

Assisted Living Facilities

Strategies for Building a Sustainable Workforce

How can a vendor management system (VMS) help you?

Our b4health VMS helps manage a healthcare facility's contingent talent, including per diem positions, and the end-to-end procurement process. Use it to optimize your float pool and automatically share needs with your roster of agencies, fill vacancies by your priorities, and improve fill rates. Can be implemented as a stand-alone service or integrated with existing software.
