

The Center for the Advancement of Healthcare Professionals provides custom **education, research, professional practice tools, and professional development services** so you can build and maintain a high-performance workforce and provide outstanding care in today's evolving healthcare landscape.

## Are you ready to solve your emerging healthcare workforce challenges?

You may already feel the strain of the staffing challenges brought on by healthcare reform, high levels of retirement, and increased demand from new patients. The Center helps you prepare for and meet the specific challenges and growing needs of your community now and in the future.

### Partnering with The Center means you can:

#### 1. Build the clinical staff you need for your community.

Assemble a workforce specific to the populations you serve, equipped with the latest clinical and patient engagement competencies.

#### 2. Create new opportunities for existing staff.

Implement leadership development and continuing education programs that show your commitment to employees' professional development, improving retention rates and differentiating you at the time of recruitment.

#### 3. Meet healthcare's new staffing demands.

Establish a pipeline of qualified clinicians to meet today's workforce challenges — such as patient influx, healthcare worker shortage, turnover, and retirement — to augment your current efforts.

#### 4. Benefit from proven reliability and experience.

Partner with The Center, part of AMN Healthcare, and you get the benefit of support and curriculum from highly degreed and recognized industry experts, as well as 30 years of healthcare staffing and workforce development experience. Along with accredited content and the Joint Commission's Gold Seal of Approval, AMN has been named one of America's Most Trustworthy Companies by Forbes\*.

# The Center for the Advancement of Healthcare Professionals

## Professional development services

Build a highly qualified workforce, better the clinician's professional career, and improve quality of care with the following programs:

- 1. Transition to Practice Program** provides specialized education through residency and fellowship program models. This program helps you build highly skilled clinicians enculturated into your environment to create the workforce pipeline needed to meet increasing demands.
- 2. Continuing Education Programs** help your staff stay current with our award-winning nursing, pharmacy and allied online and classroom courses.
- 3. Leadership Development Programs** help build and develop leadership and relationship-building skills for effectively leading teams to successful outcomes.

The Center curriculum is created by our highly experienced, credentialed staff, vetted by industry experts, and accredited by ANCC, ACPE, CCMC, CPE Monitor and CE Broker.

## Professional practice tools

Assess, benchmark and manage skill levels to ensure your healthcare professionals are in compliance. Tools include:

- 1. Knowledge assessments**
- 2. Professional portfolio management**
- 3. Professional communities of practice**

## Healthcare research and insights

Be privy to up-to-date best practices as well as present and future trends from data we collect and analyze from thousands of healthcare professionals and leaders in hospitals and health systems across the country. We deliver this valuable information via surveys, reports, and other thought leadership content to enhance the understanding of:

- 1. Quality client outcomes**
- 2. Future trends**
- 3. Clinical relevancy**

## About The Center

AMN Healthcare, the leader and innovator of healthcare workforce solutions and staffing services, created **The Center** for the Advancement of Healthcare Professionals to help build a healthcare workforce that is prepared to face challenges today and tomorrow.

The Center delivers high-quality research, education, professional practice tools, and professional development services to satisfy unmet workforce needs, relieve management burdens, and achieve person-centered care mandates under today's new realities of healthcare.
