

# ELECTRONIC MEDICAL RECORDS STAFFING SOLUTIONS CUSTOM CREATED FOR YOUR FACILITY

Making the transition or upgrade to an electronic medical records system (EMR) can bring improved efficiency and patient safety, plus financial incentives and several other benefits for your staff. Our dedicated team of EMR transition experts will work with you to assess your facility's specific needs, devise a plan and provide the supplemental staff you'll need throughout the EMR transition process.

**55+** Specialties Placed

**3,800+** EMR Clinicians Placed

**80+** EMR Projects Completed

**15,000+** Nurses with EMR Experience

## Our Dedicated EMR Solutions Team

Our dedicated EMR staffing team has been helping facilities with their system installations and upgrades since 2005. With decades of experience, our team will partner with your implementation team to provide project management and on-site support in addition to EMR travel RNs that possess a unique combination of clinical and technical skills plus go-live experience.

During your EMR implementation, AMN's dedicated solutions team will help you:

- Deliver high-quality care and maintain patient satisfaction scores
- Accelerate system adoption and reinforce compliance and charting processes
- Offset losses in efficiency (industry estimates average 15%) due to core staff's learning curve on new system
- Maintain morale and avoid EMR implementation-induced attrition and LOAs
- Manage all supplemental EMR travel RNs

Learn more about the benefits of partnering with AMN Healthcare during your EMR system implementation. Call (866) 871-8519 to speak to our electronic medical records transition experts and request a free EMR staffing assessment or submit your staffing request online at [www.AMNHealthcare.com/emrstaffing](http://www.AMNHealthcare.com/emrstaffing).

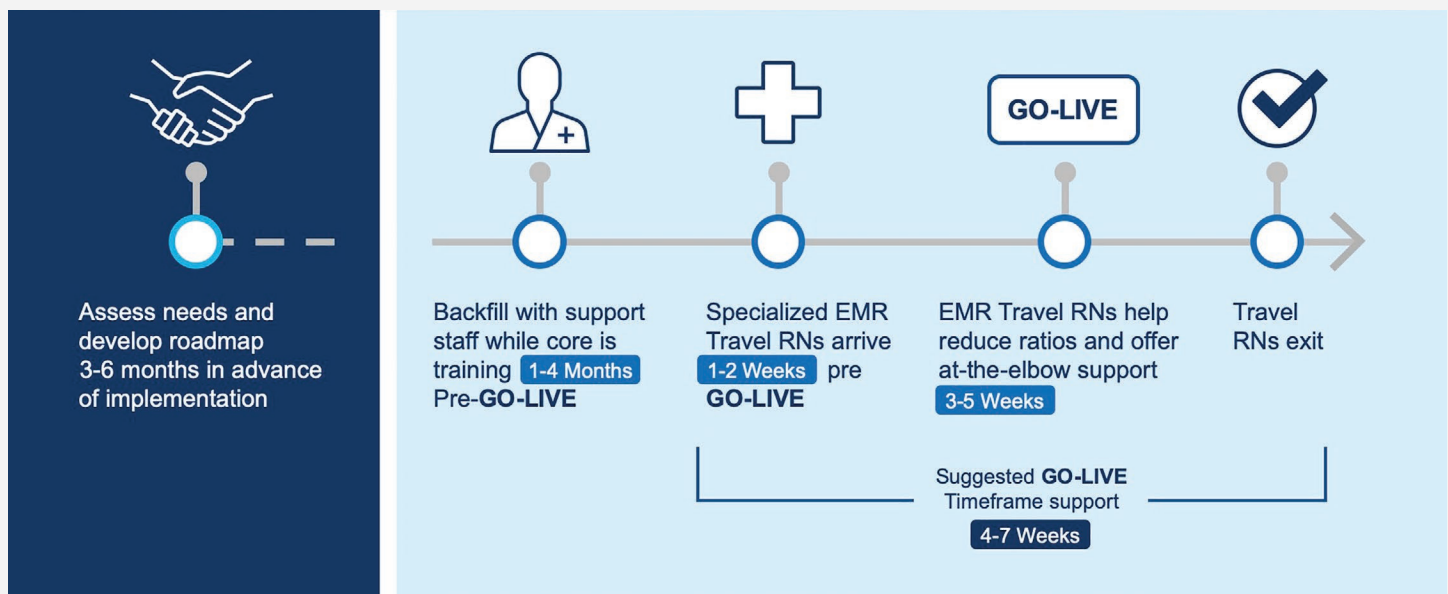

## Custom EMR Staffing Strategies that Prioritize Your Goals

At AMN, we recognize that each facility's electronic medical record conversion project is unique, which is why your staffing solution will be customized to your needs. Our goals for your success are:

- Minimal impact on clinical staff so they can maintain excellent patient care
- Keeping beds open to serve patient community and avoid loss of revenue
- Roll out one unit or your entire health system – in stages or all at once
- Improving technology adoption among your core staff
- Backfilling for core staff while they train on the new system
- Supporting core staff with additional 'Go-Live' system expertise
- Accessing the full spectrum of healthcare providers including, physicians, therapists, pharmacists and RNs

## Preparation is Key

Our team has the expertise to design and customize a staffing solution to fit your individual facility's needs. One way that we do this is by assessing the capacity of your current team and then planning and developing a roadmap **three to six months out from implementation**. In doing this, our team can help source and backfill your staff with trained, qualified, compliant and cost-effective talent.

## Rely on AMN for Quality Staffing Advice and Clinical Excellence

AMN Healthcare has been in the business of innovating healthcare workforce solutions for more than 25 years and has been certified by The Joint Commission with its Gold Seal of Approval™ for Staffing Companies.
