

# Home Health Staffing Services

## 10,000 People Are Turning 65 Every Day

This aging population is fueling a demand for home health care, but at the same time the industry is seeing historic staffing shortages.

This demand is propelling home health care revenue projections to over \$300 billion, but will your agency be able to see their share of these returns if it's not staffed properly to meet the influx of new patients?

How do you prepare so you can meet patient needs, provide quality care and ensure that your employees aren't overburdened?

## Temporary Staffing Helps Home Health Agencies

A staffing partner can help provide you with a vast network of temporary home healthcare clinicians. You will have access to:

- Highly trained home health candidates at the ready
- Clinicians with the skills you require
- Graduates of the Home Care Institute

High-quality travelers can keep your agency running smoothly and let you concentrate on exceeding patient needs, growing revenue and offering high-quality care.

## A Temp Worker Strategy Can Help You Overcome:

- Staffing shortages
- Increasing patient demands
- Staffing imbalances among units
- Staffing on the fly
- Labor cost overruns
- Burnout
- Low morale among clinicians
- Inability to stay competitive

## Meet Your Staffing Needs with AMN Healthcare

Adequate staffing levels help you meet increased patient demands. That's why AMN provides you with access to the largest and most diverse pool of highly-qualified healthcare professionals in the industry. We have a dedicated AMN Home Healthcare team that expands staffing services to meet demands and provides candidates that are OASIS-trained healthcare professionals who receive almost 20 hours of instruction on home healthcare best practices. We also provide flexible options for all of your temporary staffing needs.

## With AMN, You Get Access to Highly Skilled:

- Registered Nurses (Home Health & Hospice)
- Physical Therapists & Assistants
- Certified Occupational Therapists & Assistants
- Speech/Language Pathologists
- Registered Nurse Case Managers
- Respiratory Therapists
- Social Workers
- And More Specialties!

*"With up to 30% of my staff being travelers at any given time, I depend on AMN to help run my agency. They are responsive and understanding and that is huge."*

— **Jeanne McLaughlin, MSN, MEd, BSMP**  
President & CEO at Visiting Nurse & Hospice

### An experienced staff you can trust

AMN listens to your unique needs and then leverages its vast experience and comprehensive pool of highly trained clinicians with the skills your home healthcare agency requires. Your new addition is ready to add value and be productive immediately.

### Pre-screened healthcare professionals

All AMN clinicians undergo a rigorous screening process and are provided with continuing education to ensure they are up-to-date with compliance training, including the option to receive 20 hours of online training through Home Care Institute (HCI). This saves you time and money associated with the hiring and training process.

### Home Health Fellowship Program

Our fellowship program is a win-win for homecare agencies and clinicians. All of our experienced nurses and therapists — who are interested in expanding their skill into the home care setting — are given the opportunity to learn home health systems on the job and via the AMN homecare e-learning program and your cooperation. This program gives your home care agency a highly trained, fully-credentialed clinician to meet home care patient demands while the clinician gains valuable real-world experience.

## Experienced, Customer-Focused Staffing Partner

AMN has over 30 years of staffing experience providing the best possible solutions for our clients. We understand how using temporary clinicians is integral to supporting your operations and delivering patient care. You can feel confident knowing that with AMN as your staffing partner, you will provide the quality clinicians that your patients need, and that you expect.
