

# Physical and Occupational Therapy Staffing Services

## AMN Can Help you Staff In-Demand Physical and Occupational Therapists

AMN Healthcare is the nation's innovator in healthcare workforce solutions. We provide permanent and travel staff to meet all of your allied health needs. With more than 30 years of industry experience, we truly understand what it takes to staff your organization for sustainability and long-term success.

**There is a high demand for skilled physical and occupational therapists, and that demand is expected to continue to grow through 2024.**

## Why is Demand Rising?

- Facilities are realizing that therapy has an important role in lowering readmission rates
- An aging population prefers to have their care at home
  - Occupational therapists can ensure the home environment is safe
  - Physical therapists can practice anywhere and adapt their exercises to the environment.

## How can you make sure your facility has the skilled therapists it needs to meet patient demand?

Working with AMN will give you access to the industry's most comprehensive network of physical and occupational therapists. Each professional is prescreened and matched to your specific qualifications, for assignments ranging from four weeks up to several months. We take care of the licensing, housing, and travel issues, and provide clinical liaisons to work with you throughout the assignment period.

## The Physical Therapy Licensure Compact

To help ensure our clients have access to quality clinicians when they need them, AMN assists physical therapy professionals seeking multistate privileges through The Physical Therapy Licensure Compact. The Compact is a state-based initiative dedicated to reducing regulatory barriers to interstate practice for physical therapy (PT) professionals. AMN underwrites the application fees for AMN PTs and PT assistants who desire to work in one of the Compact states.

We see multistate privileges as a win for all involved. Patients will have greater access to quality care, clinicians will have more mobility and new career opportunities, and healthcare organizations will be provided with larger numbers of qualified professionals. It will also allow the provision of electronic or telemedicine services by placing privileged clinicians across state lines.

To learn more about how AMN can help you gain access to the highest quality physical and occupational therapists, please visit [www.amnhealthcare.com/allied](http://www.amnhealthcare.com/allied)

### About AMN Healthcare
