

AMN Healthcare's Candidate Credentialing Services

ProCertify CVO is AMN Healthcare's credentialing and licensing service for physician and advanced practice professionals. Designed to save you time, ProCertify CVO ensures your healthcare professionals meet the industry's highest-quality standards.

ProCertify CVO is a thorough, proven process, backed by AMN Healthcare, the nation's leading healthcare workforce staffing and management solutions provider, and certified by the National Committee for Quality Assurance (NCQA).

With organizations requiring the delivery of programs that positively impact clinical excellence, quality patient care and financial performance, upfront certification reduces the risk of costly delays resulting from unfilled practitioner positions or unqualified candidates. Partnering with a certified credentials verification organization (CVO) can help you mitigate risk by making sure your physicians have the appropriate credentials before they begin an assignment.

ProCertify CVO conducts credentialing and re-credentialing processes according to NCQA-defined process requirements for primary source verifications. Our NCQA aligned standards are the highest in the industry, which means your healthcare professionals will meet industry standards and you'll save on duplicative processes by eliminating the need to operate multi-site medical staff offices (MSOs).

Other benefits include:

- Rapid placement of credential verified providers on assignment
- Administrative cost reductions, efficiencies and savings
- An extension of your MSO without increased headcount and associated administrative costs
- A cost-effective alternative to operating a stand-alone MSO
- A turnkey credentialing solution designed to meet your specific credentialing needs — either routine or high volume/demand-driven

ProCertify CVO offers the following primary source verifications and supplemental services:

- Application – Attestation processing
- Licensure application consulting and processing
- Licensure verification and state sanctions
- DEA/CSR verification
- Work history
- Education/training
- Malpractice claims history
- Sanctions¹
- Ongoing monitoring of sanctions²
- Provider background checks, drug screens and referencing

¹ Services include State, Medicare and Medicaid entities queried at the point of provider credential process.

² Services include State, Medicare and Medicaid entities queried monthly and reported to our customer when provider sanctions are discovered.
